

Vision::calibrate

```
graph LR; A[Vision::calibrate] --> B[Vision::show_image]; B --> C[Vision::take_frame];
```

A flowchart illustrating a sequence of three functions from the Vision module. The first function, 'Vision::calibrate', is highlighted with a gray background. It points to the second function, 'Vision::show\_image', which then points to the third function, 'Vision::take\_frame'.

Vision::show\_image

Vision::take\_frame
